

## Presentation of William H. McRaven, CHANCELLOR

Texas Higher Education Coordinating Board  
January 21, 2016

### ACTIONS TAKEN THUS FAR

- Established direct lines of reporting
- Established the Deputy Chancellor position as Chief Operating Officer
- Routine leadership communication; expanded means of collaboration
- Policy and rule review underway
- Directed organizational assessment to align System Administration
- Completed a review of compliance structure
- Bridging Academic and Health Affairs
- Developed the Central Bank Concept
- Applying private sector practices to plan, design and construct institutional facilities

## STRATEGIC ASSESSMENT – THE METHODOLOGY

First, we sought to understand the environment – this involved interviews, site visits, and data mining with a purpose to understand the status of the various environmental “domains” in which the University of Texas System operates:

- Education...the increasing and adding of new knowledge, pre-K through 16 and beyond
- Health...issues impacting the provision and delivery of health and well-being to the population
- Economy...issues impacting the loss or gain of financial resources
- Human Capital...issues impacting the capacity and value to the workforce
- Research and Discovery...the translating of ideas to enhanced knowledge and valued products and/or services
- Public Policy...laws, regulations and directives that affect the human condition
- Community Engagement...issues affecting the quality of life and well-being of a population in a given region

5

## STRATEGIC ASSESSMENT – THE METHODOLOGY

Sampling of the rigor involved in the assessment:

- Personal one-on-one interviews with every President and every Provost
- Site visits and data gathering with numerous government agencies, non-government entities, experts and think tanks from local to global
- Research included THECB, TEA, Texas Workforce Commission, Department of State Health Services, Texas State Demographer, National Science Foundation, Center for Disease Control, Council of State Governments, Moody's, Bloomberg, the Global Economic Forum, the Organization for Economic Cooperation and Development...and many more

6

## STRATEGIC ASSESSMENT – THE METHODOLOGY

- We then studied the data for relevance and impact on our role as a public university system...
- We sought understanding of the current situation or status of each domain and where that domain was trending for the next five years.
- We looked for the most significant issues, if any, that transcend global, national, state and sub-state regional levels.
